NATIONAL FOREIGN INTELLIGENCE BOARD

21 SEP 1976

MEMORANDUM FOR NATIONAL FOREIGN INTELLIGENCE BOARD PRINCIPALS

FROM : George Bush
Chairman

SUBJECT: Intelligence Needed to Combat International Terrorism

1. The Secretary of State has advised me of his belief that the urgency and magnitude of the international terrorism problem require a strengthening of inter-departmental machinery designed to deal with this threat. He has appointed Ambassador L. Douglas Heck as Director of a newly structured State Department office to combat terrorism and designated Ambassador Heck to serve as the Coordinator of the Cabinet Committee Working Group on Terrorism. The Secretary has requested that I participate with his representatives in exploring ways in which the management and coordination of our overall effort to deal with acts of international terrorism can be improved.

2. As an essential element of this program there must be a continuing focus by organizations of the Intelligence Community on the acquisition and prompt dissemination of the intelligence needed to counter terrorist activity.

3. All NFIB organizations that have a capability to collect information on the plans, intentions and capabilities of groups or individuals engaging in international terrorist activities are requested to assure the currency of the requirements against which they are operating. Those organizations involved in the analysis and interpretation of such information are requested to pay particular attention to its expeditious dissemination.

4. I have designated [] as my representative in dealing with the international terrorism problem, and have requested that he work with [] USAF (Retired), of my Intelligence Community Staff, on Community aspects of the problem.

5. I invite you to provide comments and suggestions to [] as to how we might improve our management and coordination arrangements so as to enhance responsiveness of the Intelligence Community to needs of the U.S. Government in this problem area. I will ask [] to keep the NFIB posted on developments.
